

PRODUCTS & ACCESSORIES

Long life safety coated high tensile wire.

- Safety coated
- Increased visibility
- Long life quality
- Anti-mould technology
- Available in Black, Natural & White colours
- Can be used in combination with Legacy Rail

Legacy Line coated wire is a non-electric horse fence solution that comes in 400m rolls and is constructed of a class-3 12.5-gauge high-tensile wire.

Legacy Line's patented polymer prevents splintering and breaking problems (preventing injuries) and is the easiest Flex Fence installation on the market with our new end loop post attachment. The polymer material also contains maximum color & UV inhibitors [polymer absorbs] and its mildew-resistant formula makes Legacy Line the future standard for horse properties.
